NURSING BED SERIES

ATV-DHC-III-FM(05)

Multi-function Weighing Bed

SIZE: L2170 × W1080 × H500/850mm bed plate: L1950 × W910mm

Function:

- The whole bed can weigh, with error controlled in 1-3%.
- Back plate adjusting $65^{\circ} \pm 5^{\circ}$, leg plate adjusting $45^{\circ} \pm 5^{\circ}$.
- Head and foot tilt $13^{\circ} \pm 3^{\circ}$.
- Lifting 500-850mm.

ATV-DHC-III-FM(04)

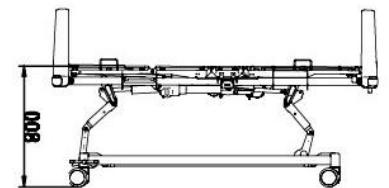

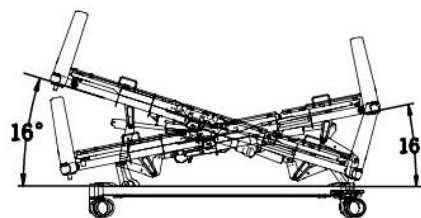

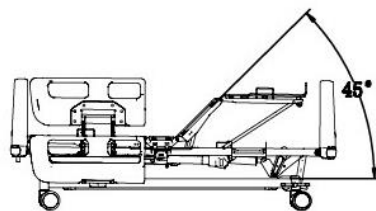

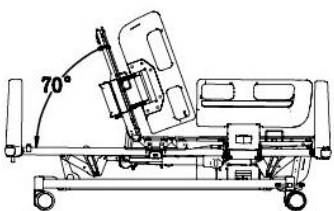

Multi-function Electric Nursing Bed

SIZE: L2170×W1080×H440/800mm In bed plate: L1950 ×W910mm

Function:

- Overall Lifting 440-800mm.
- Back plate adjusting $70^{\circ} \pm 5^{\circ}$.
- Leg plate adjusting $45^{\circ} \pm 5^{\circ}$.
- Tilt $16^{\circ} \pm 3^{\circ}$.
- 4 pieces of European style guardrail, upside-down structure.
- Luxury central control castors, with lock, straight going, free moving braking device.
- With CPR function.
- Bed board adopts HPL board, X-ray photograph for whole body is available.
- 2 step adjustment at shank section.

ATV-DHC-II-FM(03)

Electric Nursing Bed

SIZE: L2170×W1080 ×H400/750mm In bed plate:L1950×W910mm

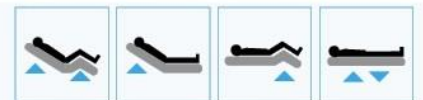

Function:

- Overall Lifting 400-750mm.
- Back plate adjusting $70^{\circ} \pm 5^{\circ}$.
- Leg plate adjusting $45^{\circ} \pm 5^{\circ}$.
- 4 pieces of European style guardrail, upside-down structure.
- Luxury central control castors, with lock, straight going, free moving braking device.

ATV-FA

New Type Nursing Bed

Function:

- Electric nursing bed is designed in novel concept-simple, fashion, humanized, combining aesthetics and medical care, demonstrating taste.
- Applicable to ICU intensive care, special care and VIP wards.
- Main body adopts high quality steel, surface with static-electric spraying treatment, antibacterial and corrosion resistant.

PRODUCT SPOTLIGHT

ATV-DHC-III-FA(01)

Electric nursing bed

SIZE: 2180×1080×460/680mm

Product function:

- Overall lifting 460-680mm.
- Back adjustment $70^{\circ} \pm 5^{\circ}$.
- Leg adjustment $30^{\circ} \pm 5^{\circ}$.
- Trendelenburg angle $8^{\circ} \pm 1^{\circ}$.
- 4 pieces of European style guardrail, upside down structure.
- Luxury central control castors, brake the bed with one stamp.
- Bed panel is made of one-step molding cold rolled steel, with excellent performance in anti-slipping and air permeability.

ATV-FA-2

Three shake nursing bed

SIZE: 2180×1080×480/760mm

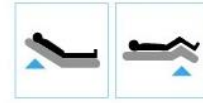

Product function:

- Overall lifting 480-760mm.
- Back adjustment $75^{\circ} \pm 5^{\circ}$.
- Leg adjustment $35^{\circ} \pm 5^{\circ}$.
- 4 pieces of European style guardrail, upside down structure.
- Luxury central control castors, brake the bed with one stamp.
- Bed panel is made of one-step molding cold rolled steel, with excellent performance in anti-slipping and air permeability.

ATV-FA-3

Double shake nursing bed
SIZE: 2180×1080×500mm

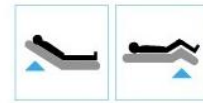

Product function:

- Back adjustment 75° ±5° .
- Leg adjustment 35° ±5° .
- 4 pieces of European style guardrail, upside down structure.
- Luxury central control castors, brake the bed with one stamp.
- Bed panel is made of one-step molding cold rolled steel, with excellent performance in anti-slipping and air permeability.

ATV-FA-4

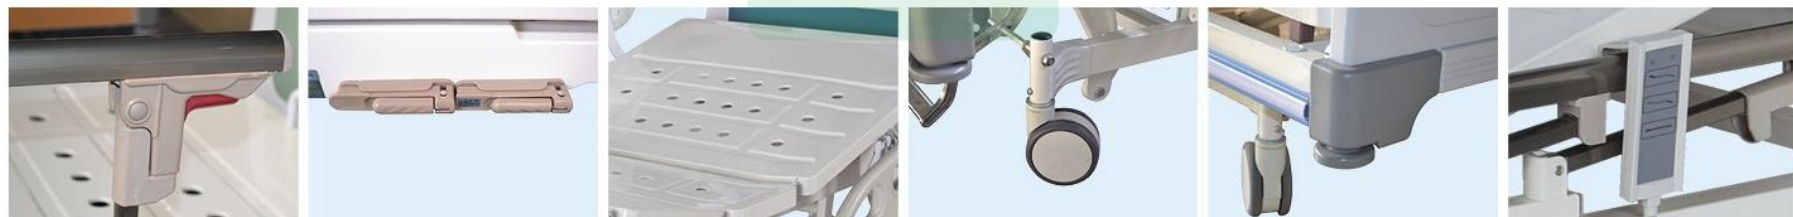

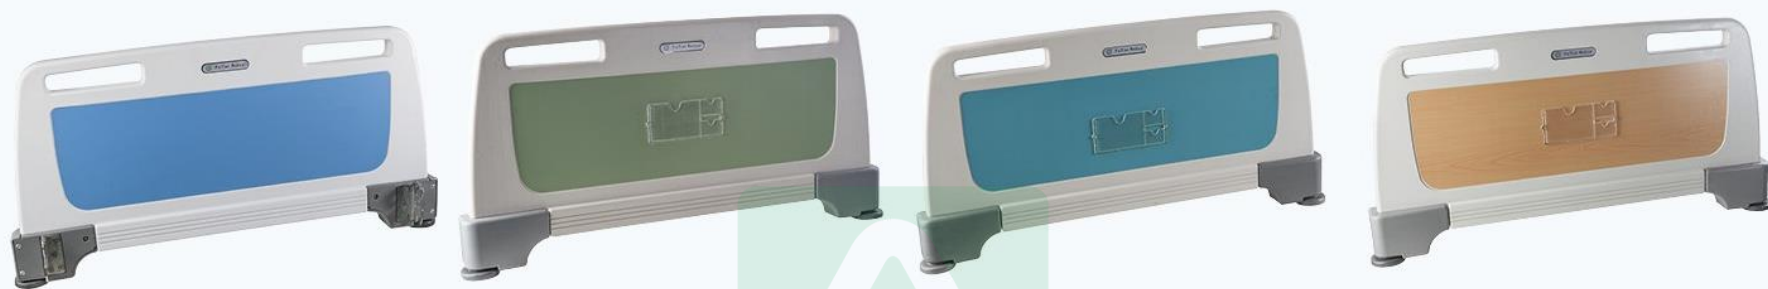

Double shake nursing bed
SIZE: 2180×1080×500mm

Product function:

- Back adjustment 75° ±5° .
- Leg adjustment 35° ±5° .
- 4 pieces of European style guardrail, upside down structure.
- 4 foot braking castors.
- Bed panel is made of one-step molding cold rolled steel, with excellent performance in anti-slipping and air permeability.

Weighing operator.

Foot control pedal.

Nurse control panel.

Panel on guardrail.

Back plate.

European style guardrail.

TENTE Casters.

Bed panel with punching design.

Standard configuration:

- 1 pair of European style bed head.
- ABS damping lifting guardrail.
- Soft connection bed penal.
- 5 pieces of Motor.
- 4 Control panels inside and outside guardrails.
- 4 Luxury central control castors.

Product function:

- Back adjustment $40^{\circ} \pm 2^{\circ}$, Leg adjustment $13^{\circ} \pm 2^{\circ}$, Trendelengurg angle $17^{\circ} \pm 2^{\circ}$, Reverse trendelengurg angle $25^{\circ} \pm 2^{\circ}$, Lateral tilt $12^{\circ} \pm 2^{\circ}$.
- Overall lifting 630-1030mm.
- 4 pieces of European style guardrail, upside down structure.
- Luxury central control castors.
- Bed panel is made of one-step molding cold rolled steel, with excellent performance in anti-slipping and air permeability.

Multiple position electric adjusting function

Driven by imported medical super-silent DC motor, enabling heart displacement position, shock position, CPR position and examination position.

Design of humanization

Bed head and end board and guardrails could be assembled and disassembled quickly. Equipped with control panel inside and outside guardrails. Overall waterproof level is IPX4.

Weighing function

Adopts high precised weighing sensor, LCD display, real-time monitoring patients' weight.

Mobile convenience

Imported German TENTE medical ultra silent castor, central locking system, easy for directional move, universal move and lock.

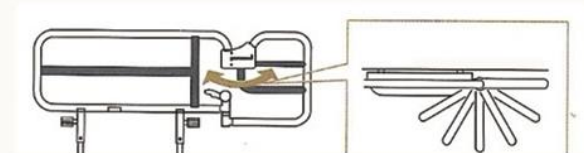

ATV-DHC-II-FH-(01) Manual Medical Bed

SIZE: L2200×W1010×H400/750mm In bed plate: L1950 ×W830mm

Product function:

- Overall lift 400–760mm.
- Back adjusting $70^{\circ} \pm 5^{\circ}$, leg adjusting $45^{\circ} \pm 5^{\circ}$.
- Novel turn-over guardrail.
- Bed board made of 1.5mm cold-rolled steel, with one pressing. Porous design, good performance in anti-slip and permeability.
- Bed load over 200kg.
- 2 step adjusting at shank section.

COLOR TROLLEY

ATV-CQ-05

Emergency trolley

SIZE: 785×480×995mm

Product function:

- Structure adopts high quality aluminum and stainless steel, with jet molding. Light and flexible in moving.
- Top adopts high quality stainless steel, with jet molding. It can be pulled open. Under the top, there are 48 medicine trays.
- Upper body is equipped with 2 drawers, 100mm, 140mm high. Inside upper drawer, there are removable drug case, to keep medicine and vessel.
- Bottom is equipped with double doors, with removable clapboard inside. At back, there is rescue board, stretchable IV pole and power socket.
- At left side there is 1 mesh frame, 1 sharps box and 2 waste bucket, for doctor' s convenience.

ATV-CM-06

Anesthesia trolley

SIZE: 785×480×995mm

Product function:

- Structure adopts high quality aluminum and stainless steel, with jet molding. Light and flexible in moving.
- Top adopts plastic uptake craft, abrasion resistant, corrosion resistant, penetration resistant and easy to clean.
- Equipped with 5 drawers, with different height 100mm and 140mm. Inside upper 4 drawers there are removable drug cases.
- 1 mesh frame, 1 sharps box and 1 waste bucket at left side, for doctor' s convenience.
- With instrument support and stretchable IV pole above the trolley.

Color trolley

ATV-CF-02

Drug delivery trolley

SIZE: Work surface: 625 x 410mm

Dimensions: 785 x 480 x 995mm

Product function:

- Structure adopts high quality aluminum and stainless steel, with jet molding. Light and flexible in moving.
- Top adopts plastic uptake craft, abrasion resistant, corrosion resistant, penetration resistant and easy to clean.
- Equipped with 5 drawers, with different height 100mm and 140mm. Inside upper 4 drawers there are removable drug cases.
- 1 mesh frame at left side, for doctor' s convenience.

ATV-CH-07

Nursing trolley

SIZE: 1120×480×935mm

Product function:

- For nursing department use.
- Structure adopts high quality aluminum and stainless steel, with jet molding. Light and flexible in moving.
- Top adopts plastic uptake craft, abrasion resistant, corrosion resistant, penetration resistant and easy to clean.
- With 1 drawer, 140mm high. Inside there are removable drug cases.
- 1 Nursing bag at right side, 2 waste bucket at bottom, rotating 180° , flexible and convenient.
- Equipped with 4pieces of Φ100 mute castors(double with brakes).

Treatment trolley
SIZE: 740×480×935mm

Product function:

- For nursing department use.
- Structure adopts high quality aluminum and stainless steel, with jet molding. Light and flexible in moving.
- Top adopts plastic uptake craft, abrasion resistant, corrosion resistant, penetration resistant and easy to clean.
- With 1 drawer, 140mm high. Inside there are removable drug cases.
- 1 mesh basket at left side, 1 sharps box at right side, 2 waste bucket at bottom, rotating 180° , flexible and convenient.
- Equipped with Φ100mm mute castors(double with brakes).

ATV-CS-02

Transfusion trolley
SIZE: Work surface: 706 x 450mm
Dimensions: 785 x 480 x 935/1470mm

Product function:

- Structure adopts high quality aluminum and stainless steel, with jet molding. Light and flexible in moving.
- Top adopts plastic uptake craft, abrasion resistant, corrosion resistant, penetration resistant and easy to clean.
- Above the trolley, there equipped with double layer transfusion frame.
- Equipped with 2 drawers, with height 100mm and 140mm, inside upper drawers there are removable drug cases.
- Mesh frame and sharps box at left side, 2 waste bucket at bottom, rotating 180° , flexible and convenient.

Color trolley

ATV-CB-02

Medical record trolley(20cases)
SIZE: 520×456×977mm

Product function:

- To keep patient record safe and in order.
- Made of high quality aluminum and stainless steel, with jet molding, light and flexible.
- Top adopts plastic uptake craft, abrasion resistant, corrosion resistant, penetration resistant and easy to clean.
- With 20 guide rails for 20 cases of medical record. Could be locked at left side in case of record loss.
- 1 drawer at upper body, 100mm high, convenient to keep blank medical folders and other things.

ATV-CB-06

Medical record trolley(36cases)
SIZE: Work surface: 680 x 420mm
Dimensions: 780 x 450 x 967mm

Product function:

- To keep patient record safe and in order.
- Made of high quality aluminum and stainless steel, with jet molding, light and flexible.
- Top adopts plastic uptake craft, abrasion resistant, corrosion resistant, penetration resistant and easy to clean.
- With 36 guide rails for 20 cases of medical record. Could be locked at each side in case of record loss.
- 1 drawer at upper body, 100mm high, convenient to keep blank medical folders and other things.

NURSING EQUIPMENT SERIES

Product function:

- Main frame of the cart is high quality aluminum alloy, with one-time molding.
- Connecting rail adopts high quality aluminum alloy, making the bed surface sliding more steady and stable.
- Height of two carts can be adjusted independently. Bed surface can slip smoothly between them when they are lifted to same level.
- It will lock automatically when the bed surface moves to the end of one cart, with safety device to avoid bed surface sliding.
- With direction wheel, can be easily operated just by one person.
- With central-control brake wheels, more steady.
- Either cart use advanced central control braking system, more reliable and stable when moving and connecting.
- Its performance and structure come to the international advanced level, can satisfy the requirement of the hospital operating room.

ATV-B-01

Docking cart

SIZE: L3900 × W600 × H650~950mm

Nursing equipment series

It has always been a problem for medical staff to transport critically ill patients. This product can successfully solve the problem.

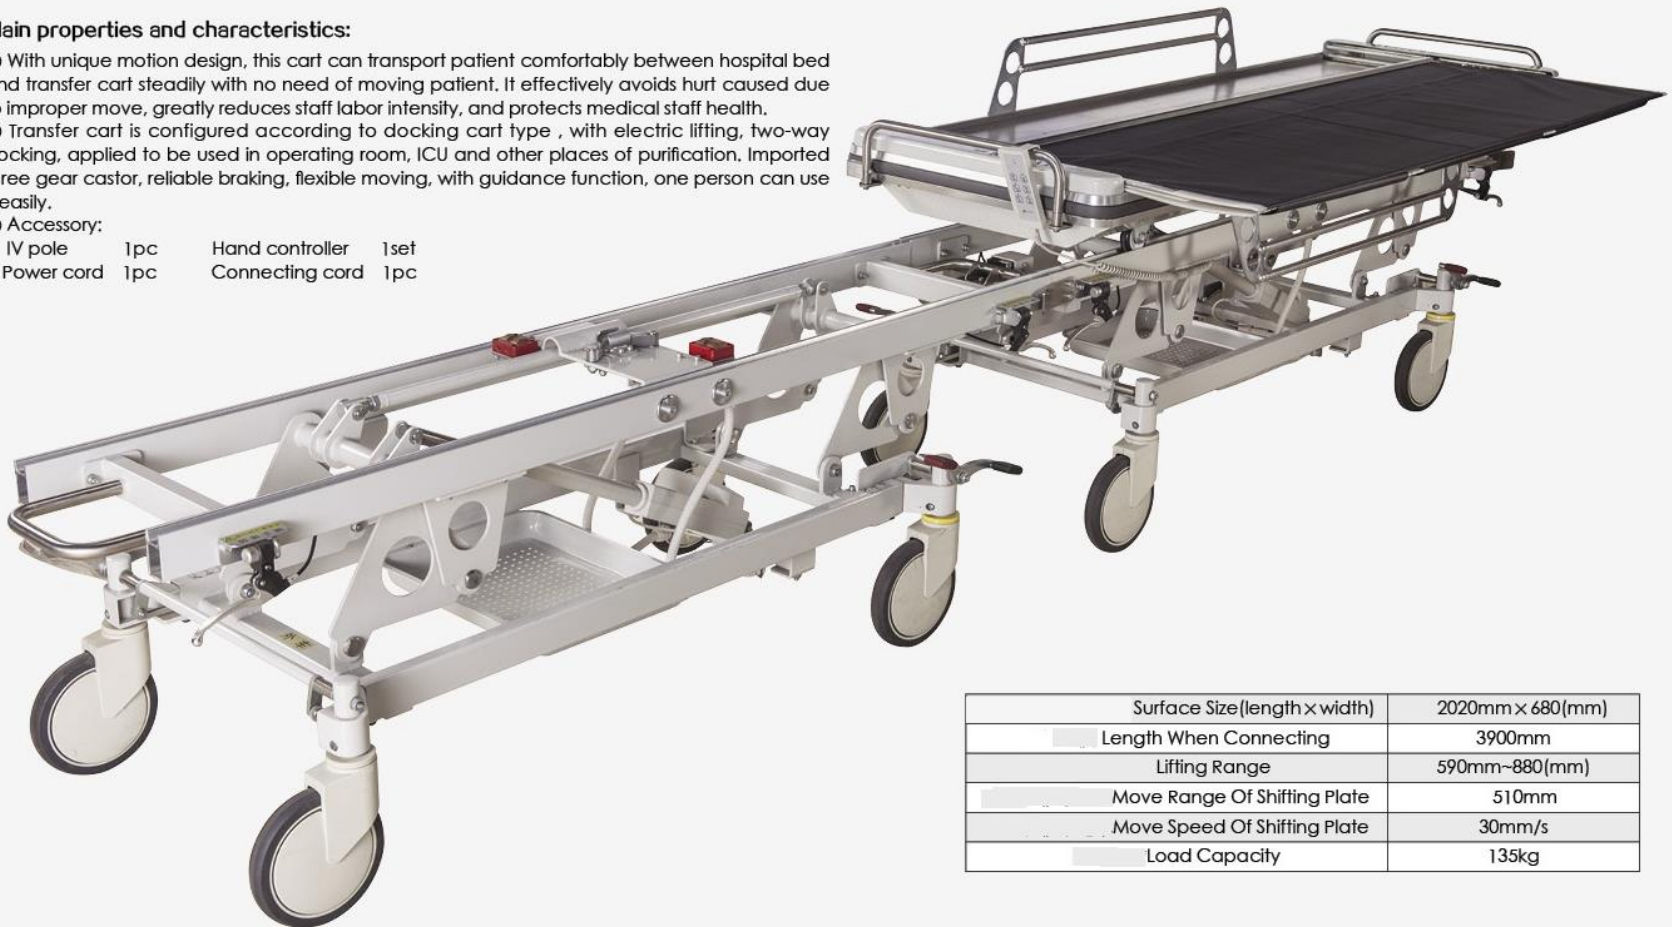

Main properties and characteristics:

○ With unique motion design, this cart can transport patient comfortably between hospital bed and transfer cart steadily with no need of moving patient. It effectively avoids hurt caused due to improper move, greatly reduces staff labor intensity, and protects medical staff health.

○ Transfer cart is configured according to docking cart type , with electric lifting, two-way docking, applied to be used in operating room, ICU and other places of purification. Imported three gear castor, reliable braking, flexible moving, with guidance function, one person can use it easily.

○ Accessory:

- IV pole 1pc Hand controller 1set
- Power cord 1pc Connecting cord 1pc

Surface Size(length x width)	2020mm x 680(mm)
Length When Connecting	3900mm
Lifting Range	590mm~880(mm)
Move Range Of Shifting Plate	510mm
Move Speed Of Shifting Plate	30mm/s
Load Capacity	135kg

ATV-B-02

Medical transportation flat cart
SIZE: L1950 x W650 x H550~850mm

Nursing equipment series

Main properties and characteristics:

- Main body is made of high quality steel, outside with powder painting. Whole panel allows X-ray irradiation lifting is controlled by double pneumatic lift system.
- The cart uses international advanced central control braking system, 150 mm diameter dust-proof castor make the cart move stable, stably, reliably and lightly.
- Lift, tilt trendelenburg and reverse trendelenburg function is controlled by pedal at side of the cart, convenient to operate.
- Central control braking pedal at end of cart. Bottom cover is made of ABS material with one-time forming.
- Cart surface is fission structure. The upper is imported hydraulic support beams design, cart body will not shake.
- Equipped with stainless steel guardrail, IV pole and drainage hook.
- Ideal for transporting patient in emergency room, ICU ward and as emergency bed or ICU bed.

ATV-B-02Y

Luxury hydraulic flat cart

SIZE: L1950×W650×H550~850mm

Nursing equipment series

Product Description:

- The cart is made of ABS industrial plastic, with international advanced hydraulic lifting system.
- Adopting international advanced central control braking system, dust proof castors ensure the cart goes smoothly and lightly.
- It can lift and tilt according to medical staff requirements.
- Adopting separate design: upper part with air spring as support source, easy to operate.

Luxury hydraulic transportation cart
SIZE: L1900×W700×H630~940mm

Nursing equipment series

Specifications:

- The main frame of the flat cart is jet-molding carbon steel, solid and good looking.
- Cart surface and guardrail is structured by one-step molding ABS material, solid and elegant.
- Adopting separate design: back plate is adjusted by air spring, could be operated by only one hand, convenient to use.
- The crank of the cart, (the screw is equipped with a two-way protection device), can adjust height of the cart surface from 600 to 830mm.
- Equipped with international advanced central control braking system, stable and reliable, the oriental castors are easy to operate.
- Meeting requirement from overall design concept, more humanized, ideal for transporting patients in hospital.

Stainless steel medical record trolley (40 case)
SIZE: 700×400×850mm

ATV-B-46

Stainless steel medical record trolley (50 case)
SIZE: 700×400×975mm

ATV-B-47

Stainless steel medical record trolley (60 case)
SIZE: 700×400×1100mm

ATV-C-10

Stainless steel working table
SIZE: 1600×700×800/1750mm

ATV-C-11

Stainless steel working table
SIZE: 1800×700×800/1750mm

ATV-C-12

Stainless steel working table
SIZE: 1900×700×800/1750mm

Nursing equipment series

ATV-C-12-2

Stainless steel working table
SIZE: 2100×1100×850mm

ATV-C-13

Stainless steel washing trough with sensor
SIZE: 1650×510×1060/1390mm

ATV-C-13-1

Stainless steel washing trough with sensor
SIZE: 1600×620×1900mm

ATV-C-16

Combined working table with stainless steel surface and seat

SIZE: 3000×700×800mm

Nursing equipment series

ATV-C-14

Stainless steel surface and seat working table
SIZE: 1600×700×800mm

ATV-C-15

Combined working table with stainless steel
surface and seat
SIZE: 1500×700×800mm

ATV-C-31

Stainless steel medicine cabinet
SIZE: 900×250/400×1750mm

ATV-C-32

Medicine cabinet with stainless steel surface and seat
SIZE: 900×240/400×1750mm

ATV-C-35

Injection preparation cabinet with stainless steel
surface and seat
SIZE: 900×240/530/400×1750mm

ATV-C-36

Stainless steel instrument cabinet
SIZE: 900×400×1750mm

Nursing equipment series

ATV-C-37

Instrument cabinet with stainless steel seat
SIZE: 900×400×1750mm

ATV-C-33

Medicine cabinet with stainless steel surface and seat
SIZE: 900×240/400×1750mm

ATV-C-33-1

Stainless steel medicine cabinet
SIZE: 900×240/400×1750mm

ATV-C-34

Stainless steel injection preparation cabinet
SIZE: 900×250/530/400×1750mm

ATV-C-38

Stainless steel instrument cabinet
SIZE: 900×400×1750mm

ATV-C-38-1

Stainless steel instrument cabinet
SIZE: 900×400×1750mm

Nursing equipment series

ATV-C-40

Instrument cabinet with stainless steel seat
SIZE: 900×400×1750mm

ATV-C-42

Sterile cabinet with stainless steel seat
SIZE: 900×400×1750mm

ATV-C-43

Stainless steel sterile cabinet
SIZE: 900×400×1750mm

ATV-C-44

Stainless steel sterile cabinet
SIZE: 900×400×1750mm

ATV-C-47

Six-door locker with stainless steel seat
SIZE: 960×400×1750mm

ATV-C-48

Double door locker with stainless steel seat
SIZE: 900×400×1750mm

Nursing equipment series

ATV-C-49

Three-door locker with stainless steel seat
SIZE: 960×400×1750mm

ATV-C-50

Shoe rack with stainless steel seat
SIZE: 960×400×1750mm

ATV-C-51

Document chest with stainless steel seat
SIZE: 900×400×1750mm

ATV-CG-02

Steel instrument cabinet
SIZE: 900×500×1910mm

ATV-D-03

Steel massage bed
SIZE: 2000×650×680mm

ATV-D-04-1

Steel examination bed
SIZE: 1950×650×650mm

Nursing equipment series

ATV-D-04-2

Steel examination bed with headrest
SIZE: 1990×650×680mm

ATV-D-04-3

Stainless steel examination bed
SIZE: 1950×650×680mm

ATV-D-05

Transfusion chair
SIZE: 700×1120×1100mm

ATV-D-06

Transfusion chair
SIZE: 700×1120×1100mm

Nursing equipment series

ATV-D-06-1

Transfusion chair
SIZE: 700×850×1100mm

Standing stainless steel IV pole

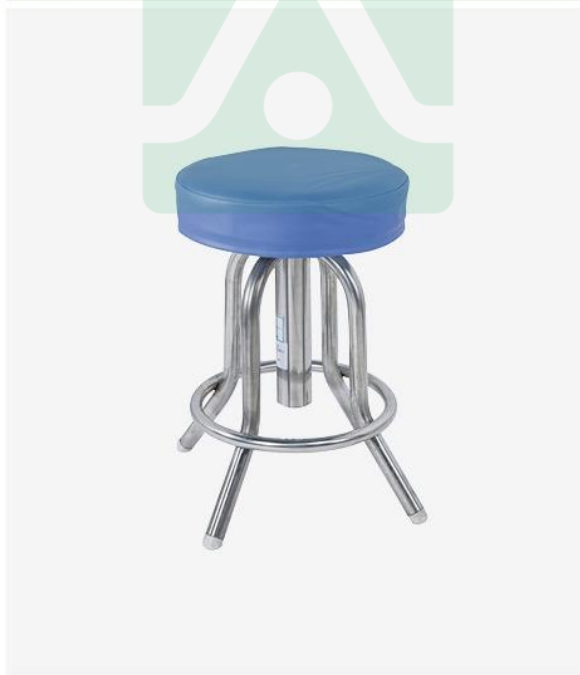

ATV-C-R

Standing stainless steel IV pole (with wheels)

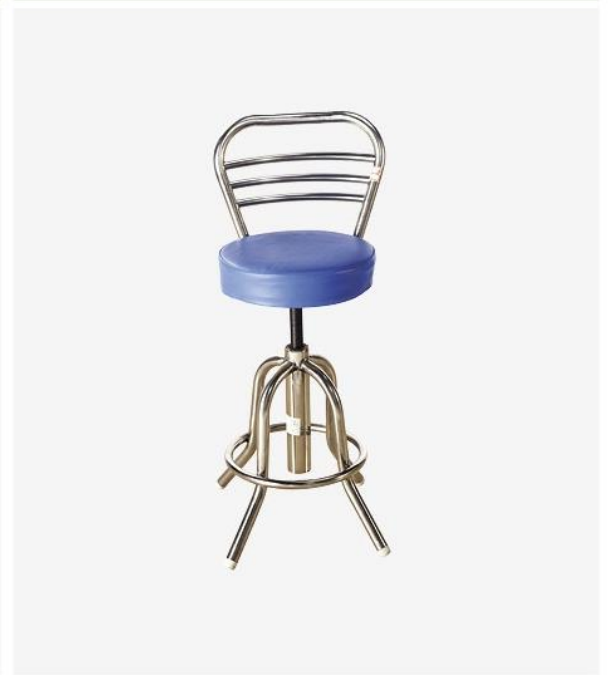

ATV-D-13

Stainless steel 3-fold screen
SIZE: 1910×1870mm

ATV-D-19

Stainless steel lifting round stool
SIZE: Φ 340×480/650mm

ATV-D-20

Stainless steel lifting round stool (with back)
SIZE: Φ 340×750/920mm
